

BABY SENSORY BALLS

These brightly-colored tactile balls have fun textures to explore and bring soothing relief to little gums at every teething phase. The colorful balls invite babies to grasp them, roll them and crawl after them. Easy to hold and perfect for early sensory explorations.

FEELING TIME

Place the balls all around you and your baby. Pick up one ball - squeeze it, rub it, grasp it in your hand. Talk about how the ball feels - bumpy, soft, groovy, slippery.

SHAPES AND COLORS

Play with the balls to explore shapes and colors with your baby. Say the names of the colors and shapes as you hand the balls to your baby to explore.

ROCK AND ROLL

If your baby is starting to crawl or move along the floor, roll the balls a short distance and encourage your baby to crawl towards the ball. Try bouncing the balls and see what happens.

TEETH AND GUMS

These textured balls are soothing for your baby's gums as teething begins. Offer your baby a few of the bumpier balls to chew on. They are easy to wipe clean.
